The original version of this Article contained an error in the Materials and Methods section, where the equation was mathematically incorrect because the denominator was incorrectly given as Final fruit set percentage.

“Fruit drop (%) = (Initial fruit set percentage – Final fruit set percentage / Final fruit set percentage) × 100.”

now reads:

“Fruit drop (%) = [(Initial fruit set percentage – Final fruit set percentage) / Initial fruit set percentage] × 100.”

The original Article has been corrected.
