Correction to: Clin Oral Invest

<https://doi.org/10.1007/s00784-026-07106-0>

In the published paper, some values in Table 1 were incorrectly aligned with the corresponding DDE types, and the formatting of certain confidence intervals required correction. These issues are limited to the presentation and formatting of the results. The underlying data and statistical analyses remain unchanged, and these corrections do not affect the results, interpretation, or conclusions of the article.

The original article has been corrected.
