Correction to: Qual Quant (2012) 46:323–339 <https://doi.org/10.1007/s11135-010-9357-1>

In the sentence beginning ‘The measurement of model fit is another critical issue in the context of GoM model’ in this article, the text ‘with the number of degrees of freedom ν equals the number of estimated parameters’ should have read ‘with the number of degrees of freedom ν equals to the difference in the number of estimated parameters between L_K and L_1 ’.

Incorrect version:

with the number of degrees of freedom ν equals the number of estimated parameters.

Corrected version:

with the number of degrees of freedom ν equals to the difference in the number of estimated parameters between L_K and L_1 .
